

Anchor Lamina Inc., is a leading international manufacturer and distributor of high quality die sets, die set components, steel plates and metal fabrications used in the production of tools, dies, molds and equipment for metal working and plastic injection molding.

Our mission is to be the 'customer focused' world-class supplier of choice to the metal working and plastic forming industries.

Anchor Lamina Inc. will provide innovative value added products and services which allow our customers to effectively compete in the global marketplace.

Our Products

- High quality Die Sets
- Steel Plates
- Die Set & Mold components
- Hydraulic drilling equipment
- Metal Fabrications
- Machine Bases & Fixtures

Our Services

- Engineering Design
- CNC Plasma & Flame Cutting
- CNC Machining
- Stress Relieving
- Blanchard Grinding
- Shot & Sand Blasting

Anchor Lamina Inc., North American manufacturing operations are organized to support four groups of product offerings:

- Anchor Die Sets
- Lamina Components
- Lamina Hydraulics
- Reliance Fabrications

Anchor Lamina GmbH, our European facility is located in Chemnitz, Germany.

For more information please visit our European website at www.epc-chemnitz.de

Our investment in people, R & D, engineering, state-of-the-art computer controlled manufacturing equipment, high quality materials and world class manufacturing methods equip us to provide our customers with high value added products and services on time at competitive prices.

Anchor Lamina Inc. technical resources and manufacturing capabilities allow us to custom build products to your specifications. We manufacture from the smallest to the largest Die Sets and machined Steel Plates in the industry. Our expertise and experience in Manufacturing Die Sets, Die Set and Mold Components, Steel Plates and Steel fabrications ensure robust quality standards and controls for our customers.

Please visit www.anchorlamina.com for more information.

Anchor Lamina Inc., is committed to helping our customers get a competitive edge by building long term relationships and partnerships.

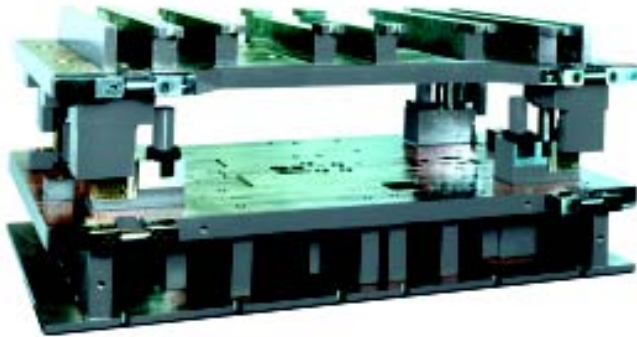

Anchor Lamina Inc.

Anchor Die Sets are produced to our customers specifications in one of our seven North American manufacturing facilities or in Germany for our global customers.

- Manufacturing capabilities include:
- Custom die sets from 3" x 3" (75 mm x 75 mm) to size 120"x 360" (3000 mm x 9000 mm)
- CNC Flame cutting, CNC machining, Blanchard grinding, Stress relieving, Welding and Finishing
- Meet and exceed industry standards on tolerances

Reliance Fabrications is a modern full service metal fabrication facility producing custom metal fabrications and steel plate products at competitive prices and on time. Products include:

- Steel fabrications including steel frames
- Machine fixtures and bases

Our products have applications in a number of industries including packaging, paper processing, machine automation, agricultural, forestry, re-cycling, steel rolling and others.

The **Lamina Components Group** is known for continuous innovation.

After pioneering bronze plated bushings, Lamina Components expanded its product offering to include:

- Die Components
- Mold Components
- Wear Plates
- Gibs
- Cams

In 2000, the Lamina Components Group introduced heavy duty NAAMS Cams under the LamCam trademark.

Lamina Hydraulics have been manufacturing high quality Hydraulic Equipment for over 35 years. Products include:

- Portable hydraulic, heavy-duty drilling equipment
- Hydraulic motors
- Hydraulic cylinders
- Die Setters
- Die Separators

Anchor Lamina GmbH, located in Chemnitz, Germany, specializes in the following products and services for the automobile industry:

- Complex steel plates
- Complete assemblies
- Welded steel constructions
- Large dies
- Engineering Design

Committed to Quality & Customer Satisfaction

Anchor Lamina is committed to be the “customer focused” world-class supplier of choice to the metal-working and plastics forming industry.

We will help our customers to compete globally by providing innovative and value added products and
